WORKED EXAMPLE · MCW-AS10 · KEEP SEPARATE

Worked example: Exam study-plan grid

One filled-in row and one day of the grid, with invented courses, to show the idea.

1. **Exam 1: BIOL 120 · 12 Dec, Gym B**
   Copy date and room from the official schedule, not a classmate's screenshot.
2. **Topics left: cells, genetics, evolution · 6 h · booked**
   Name topics, not chapters, so each session has a clear goal.
3. **Monday box: "1: 2 h, 3: 1 h, catch-up 1 h"**
   Mix two exams in a day so one hard subject doesn't fill a whole day.
4. **Sunday box: "rest + review list"**
   A lighter day keeps the plan realistic.

YOUR OWN CASE

Redo the example with your own details and dates.

My notes

HOW WE CHECKED THESE ANSWERS

This sheet makes no factual claims beyond pointing you to your school's own exam schedule and rules. Examples are invented.

Sources: this sheet states no outside facts; it is a planning page. Checked 2026-11-28.
