Quebec AFE calculation simulator prep

Gather the figures Quebec's official Loans and Bursaries simulator asks for, run the 2026-2027 simulator, and record the result with the date. The official page says the result is not a commitment.

NAME

DATE

THIS RUN

AWARD YEAR I SELECTED (2026-2027 OR 2025-2026)

DATE I RAN THE OFFICIAL SIMULATOR

MY SCHOOL'S FINANCIAL AID OFFICE (NAME OR EMAIL)

AMOUNT THE SIMULATOR SHOWED (CAD)

BEFORE AND AFTER I RUN IT

- [ ] I opened Quebec's official simulateur de calcul, not a third-party copy
- [ ] I selected the award year that matches my study period
- [ ] I used income, expenses and family details I can support if asked
- [ ] I saved or printed the result and wrote the date below
- [ ] I know the official page says the result is not a commitment by Aide financière aux études
- [ ] If I want a closer check, I will ask my school's financial aid office

FIGURES TO HAVE BESIDE ME

What I entered or asked about	My figure or note	Source of that figure
My income		
Allowed expenses		
Family situation		
Level of study		
Parents', sponsor's or spouse's income (if it applies)		

If your situation changes mid-year, Quebec says you must tell Aide financière aux études, because the amount can change.

Quebec AFE calculation simulator prep (continued)

Quebec's Aide financière aux études says the calculation simulator lets you see the amount that could be granted under the Loans and Bursaries Program, and that the results must not in any case be interpreted as a commitment by Aide financière aux études. https://www.quebec.ca/education/aide-financiere-aux-etudes/prets-bourses-temps-plein/calcul/simulateur-calcul (checked 2026-11-27)
The official page links a simulator for 2026-2027, and a separate simulator for 1 September 2025 to 31 August 2026. Quebec says you should select the right award year because the calculation parameters can change from year to year, and that staff at your school's financial aid office can help you run a more precise simulation or check the results. https://www.quebec.ca/education/aide-financiere-aux-etudes/prets-bourses-temps-plein/calcul/simulateur-calcul (checked 2026-11-27)
Quebec says the calculation is based on your income, allowed expenses, family situation, level of study and, as applicable, your parents', sponsor's or spouse's income. https://www.quebec.ca/education/aide-financiere-aux-etudes/prets-bourses-temps-plein/calcul/calcul-aide-financiere (checked 2026-11-27)
Quebec says that if your financial need does not exceed the loan amount set for your level of study, you receive aid as a loan only, and that if it exceeds that amount you also receive a bursary. https://www.quebec.ca/education/aide-financiere-aux-etudes/prets-bourses-temps-plein/calcul/calcul-aide-financiere (checked 2026-11-27)
