PRIVACY AND PERMISSION

- [ ] Written permission is on file before I attend
- [ ] I have not recorded patient names or other identifiers
- [ ] I followed the site's dress, confidentiality and immunization rules
- [ ] A verifier is named for each visit I may later list on an application

Hospitals and clinics set their own observership rules. This log does not authorize access to a clinical area. If you later list an activity on an OMSAS sketch, OMSAS requires a verifier for each activity.

OMSAS says that for each activity in the Autobiographical Sketch you must provide contacts who can verify your involvement. https://www.ouac.on.ca/guide/omsas-sketch/ (checked 2026-11-27)
