OFFICIAL STEPS

- [ ] Opened my regulator's official exam page
- [ ] Noted fees, identification rules and retake waiting periods from that page
- [ ] Requested accommodation with the regulator before registering with the exam vendor, if I need it
- [ ] Booked the sitting only after I had the official authorization or eligibility notice

Which exam you write is set by your regulator, not by this sheet. Open the College of Nurses of Ontario pages if you are applying in Ontario, or the CPNRE site and your own regulator if you are writing the CPNRE.
