IEEE citation quick-reference card

The IEEE style reference patterns for the sources students cite most, with space to write your own entries and a final check before you submit.

NAME

DATE

PATTERNS (FILL IN YOUR SOURCE)

In the text: a number in square brackets, e.g. as shown in [2]; the same source keeps the same number.

Journal article: A. Author and B. Author, "Title of article," Abbrev. Journal, vol. #, no. #, pp. #–#, Mon. Year.

Book: A. Author, Title of Book. City: Publisher, Year.

Web page: Organization. "Title of page." Site name. URL (accessed Mon. Day, Year).

BEFORE I SUBMIT

- [ ] References numbered in the order first cited
- [ ] Initials before surnames
- [ ] Book and journal titles in italics
- [ ] Access date on web pages

Your course outline decides the style. Check your instructor's rules and the official guide in the sources.

SOURCES (CHECKED 2026-11-27)

Concordia University Library's IEEE guide says sources are cited in the text with numbers in square brackets that increase with each new source, and the same number is used each time you cite the same source. https://library.concordia.ca/help/citing/ieee.php (checked 2026-11-27)
