Course review notes: outlines, reviews and the tools I'll use

Before you enrol, compare what the outline says with what other students report, then list the study tools each course needs.

NAME _____ DATE _____

WHAT I FOUND

Course	Where I looked	Workload	How it's marked	What stood out

TOOLS FOR EACH COURSE

Course	Tools it needs (software, calculator, reference manager)	Set up?

BEFORE I ENROL

- [ ] Read the official course outline or calendar entry
- [ ] Noted when each review was written
- [ ] Checked more than one review source
- [ ] Checked prerequisites and timetable fit

Reviews are one student's opinion from one term, and courses change. The calendar and the current outline are the official word.
