SOURCES (CHECKED 2026-11-27)

ESDC's How to become an apprentice page lists seven steps: find a trade, find apprentice opportunities, find an employer to provide on-the-job training, register your training agreement with your provincial or territorial apprenticeship authority, get financial aid if you need it, earn while you learn, and get certified.

The same page says that, depending on the trade, it can take between two and five years of training before you can apply to become a certified journeyperson, and that the certificate is also known as a certificate of qualification or your “ticket”.

ESDC notes that in Quebec you attend classroom training at a CEGEP, college or training institution first, and then take on-the-job training with an employer.
